

LIGHTHOUSE

lighting catalog

*We would like to welcome you to our world.
Creating soulful, light and delicate pieces for those who believe in the difference, its our reason of being.
Mambo Unlimited Ideas is a design Brand that reflects a state of being in life, through the nature of our pieces. Pieces that combine balance and irreverence and that allow each person to use them in a way that better suits the space they are involved.
We design and produce a collection that includes furniture, ceramics, accessories and lightening. Where each piece holds a story untold. And where each story is made of our quest to find new materials, innovative techniques, textures and color scheming..
"Lighthouse" it's the new furniture catalog that unites an extensive amount of pieces that can be altered in color and texture.
Our team of designers and artisans work to achieve an elegant, unic and versatile collection that allows each creative spirit to customize, through a vast range of finishings.*
